
Transpoco
Making Fleet Excellence Effortless

Company Overview

Our Mission

To make fleet excellence effortless, helping every fleet run safely, efficiently and sustainably, without the burden of long-term contracts.

We help fleets of every size go beyond tracking vehicles to running genuinely excellent operations. From construction and utilities to local authorities and transport, we combine smart technology with expert guidance tailored to each fleet.

With dedicated offices in Ireland, France and the UK, we work alongside fleet managers to turn data into action and make fleet excellence effortless.

Excellence, Not Complexity

Every fleet is different, and too many add-ons, modules and unused data can turn a system into chaos. We keep it simple: we give fleet managers the tools, insight and expert support they actually need, plus a clear plan to run an excellent fleet.

Making Fleet Excellence Effortless

Our vision is a world with no accidents, no traffic, and no pollution. We are committed to creating safer roads, reducing environmental impact, and improving transportation efficiency through advanced technology and smarter systems, contributing to a healthier and more sustainable future for all.

Our Customers

With an established customer base and growing across Ireland, France, Spain, the Caribbean, United Kingdom and the United States of America, Transpoco's reach is truly global.

Although we have a global presence, we pride ourselves on providing local support and expertise on the ground.

Our dedicated teams provide personalised support, tailored to the unique regulatory and compliance needs of each region, ensuring that no matter where your fleet operates, you'll receive the attention and assistance you need to stay on track.

Solutions

Fleet excellence needs the right tools. Our connected platform brings tracking, safety, maintenance, compliance and video together, so fleets of every size can see what matters, act on it and keep improving.

Transpoco Move

Ultimate GPS-based fleet management system
Stay in control of your team's productivity with real-time location tracking, ensuring efficient time management and progress monitoring. Streamline operations and optimise resources with ease.

Transpoco Perform

Solution for optimising fleet management
With sophisticated algorithms, it analyses driver behaviour, calculates fuel consumption, and offers intelligent routing. Experience advanced reports to enhance efficiency and reduce costs. Take control of your fleet with Transpoco Perform.

Transpoco Maintain

Included in our Transpoco Perform package
Transpoco Maintain is a powerful fleet compliance software. It streamlines maintenance recording and vehicle checks, ensuring optimal fleet management. Stay on top of your fleet's health with Maintain's comprehensive features.

Transpoco Locate

GPS tracking base with comprehensive fleet management features
Design your own customisable system, tailored to your specific needs. Monitor, track, and optimise your fleet's performance effortlessly. Experience seamless control and efficiency with Transpoco Locate.

Transpoco Protect

Smarter way to ensure safety on the road
Harnessing the power of AI, our platform utilises voice to identify threats, deliver timely incident alerts, and proactively respond to potential risks. Stay ahead of danger with near real-time preventive measures.

Transpoco Vision

Access real-time footage of accidents or near misses
Protect your business by promoting a culture of safe drivers and quick dispute resolution. State-of-the-art dashcam connectivity allows you to download video evidence, review snapshots, or set up instant alerts in addition to real-time recordings. Our Transpoco Vision dash cams come with a range of features.

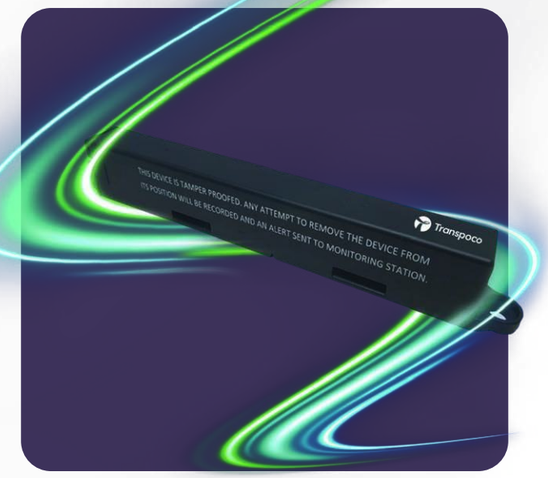
Hardware

Behind every excellent fleet is reliable data.

Our powerful range of hardware delivers real-time insight, improves safety and gives you full asset visibility. It is easy to install, integrates seamlessly into your fleet and turns every journey into actionable data.

Asset Trackers

Transpoco's asset tracking solutions provide full visibility over unpowered assets such as trailers, heavy equipment, and containers.



Key Features Include:

- Real-time GPS tracking: Keep track of valuable assets at any time, reducing theft and improving operational efficiency.
- Battery-powered options: Long-lasting batteries ensure reliable tracking even for assets without a constant power source.
- Environmental monitoring: Track conditions such as temperature and humidity for sensitive cargo.

AI-Connected Cameras

Our AI-powered dash cams provide enhanced safety and visibility. These cameras are designed to monitor and detect critical driving events, offering real-time insights and recordings that help protect drivers and reduce liability in case of incidents.

Key Features Include:

- Real-time video alerts: Instantly notify fleet managers of unsafe driving behaviours such as harsh braking, speeding, or distracted driving.
- Driver coaching: AI analyses driving patterns and provides automatic feedback, allowing managers to coach drivers on improving safety.
- Incident recording: Capture footage of potential accidents, helping with insurance claims and incident reconstruction.
- Front, Back and Dual-facing cameras: Monitor both the road ahead and the driver's behaviour inside the cab to ensure compliance and safety.

Telematics Devices

Transpoco's tracking devices provide a deep level of integration with your fleet's vehicles, enabling you to extract critical performance data directly from the vehicle's onboard diagnostics.

Key Features Include:

- Vehicle diagnostics: Monitor engine performance, fuel consumption, and potential mechanical issues in real time.
- Driver behaviour tracking: Use data from the CAN bus to analyse driver habits such as idling, fuel usage, and harsh braking.
- Preventive maintenance: Receive alerts for scheduled maintenance or diagnostics, helping to reduce vehicle downtime and minimise costly repairs.
- Fuel usage monitoring: Get precise insights into fuel consumption, enabling you to optimise routes and reduce costs.

Fleet Excellence

Your Fleet Excellence Plan built by Transpoco experts

It starts with a free fleet assessment. Our Fleet Excellence team reviews how your fleet runs today, highlights the behaviours impacting safety, cost and efficiency, and builds a clear plan with reports, targets and regular reviews to keep you on track.

Data-Driven Insights on What Works For Your Fleet

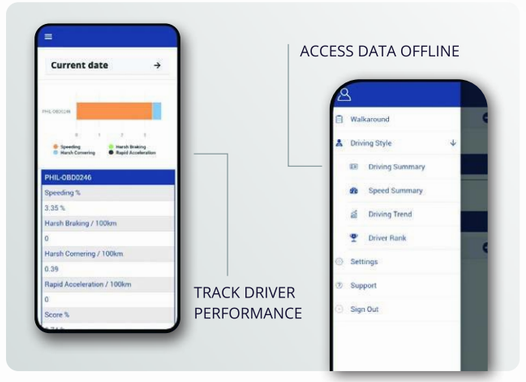
Data only matters when you act on it. By analysing the behaviours that drive fleet success, we help you replicate what works across every vehicle and driver, set up tailored reports and get the full value from our software and hardware.

Ongoing Support from Transpoco's Experts

Fleet excellence is not a one-off. Our experts stay with you, reviewing your results, spotting what is working and what is not, and adjusting your plan as your fleet grows. With tailored reporting and continuous support, you always get the most from your technology and your team.

Mobile Apps

Transpoco offers mobile apps designed to give fleet managers and drivers the flexibility to access vital information on the go. With seamless integration into our platform, our mobile apps ensure that your team stays connected and informed, whether in the office or on the road.



Driver App:

Our Driver App gives drivers everything they need in one place, from daily checks to real-time feedback on their driving.

- Vehicle inspections (walk-around checks): Ensure vehicles are safe and compliant before every journey.
- Driver behaviour monitoring: Keep drivers informed about their driving performance with real-time feedback.
- Messaging: Enable communication between drivers and fleet managers to ensure quick updates and better coordination

Fleet Manager App:

Designed for fleet managers, this app offers real-time visibility and control over fleet operations. Key features include:

- Live tracking: Monitor the location of all vehicles in real time from your mobile device.
- Reports on demand: Access essential reports such as fuel consumption, vehicle utilisation, and driver performance from anywhere.
- Alerts and notifications: Stay informed with instant alerts for incidents like harsh braking, speeding, or maintenance issues.

Our mobile apps help ensure that no matter where your fleet is, you always have the tools and information you need to keep everything running smoothly.

Team

Fleet excellence is built by people. Our team of passionate professionals is committed to helping every customer run a safer, smarter and more efficient fleet.

From fleet management experts to our customer service and technical support teams, everyone at Transpoco is focused on delivering a seamless experience for our clients.

We pride ourselves on being accessible and responsive, with service and support available around the clock to ensure that our customers always have what they need to keep their fleets running smoothly. Our commitment to flexibility and excellence means that we're with you every step of the way, helping you make fleet excellence effortless.

IQNET CERTIFIED MANAGEMENT SYSTEM

Safety and compliance sit at the core of fleet excellence. We give you a suite of tools to protect your drivers, stay compliant and minimise risk on the road.

Key Features Include:

- Driver identification: Ensure the right drivers are operating the right vehicles with Driver ID tags.
- Driver safety scorecards: Monitor risky driving behaviours like speeding, harsh braking, and seatbelt violations, allowing managers to address issues before they lead to accidents.
- Walk-around checks: Streamline vehicle inspections with our integrated driver app, ensuring compliance and early defect detection.

These tools help fleet managers keep their drivers safe and ensure compliance with all necessary regulations, reducing the risk of penalties and accidents.
