

Moving Forward, Together

Company Overview

Our Mission

To drive innovation in fleet management, enabling our customers to operate safely, efficiently, and sustainably without the burden of long-term contracts.

As a trusted partner for fleet management solutions, Transpoco serves a diverse range of industries including construction, utilities, local authorities, transport, and more. Our flexible solutions are designed to meet the unique needs of each fleet, whether they operate small vans vehicles or specialist vehicles.

With dedicated offices in Ireland, France and the UK, we are continually helping fleet managers globally optimise their operations with simple-to-use, reliable technology.

Fleet Happiness Score

We understand that every fleet is different and challenging, with so many software add-ons, modules, and excess data can create a bloated system with many unused features that can turn to chaos. Our focus is simple, it is to equip fleet managers with the bespoke tools they actually need to succeed in their job and manage excellent fleets.

Moving Forward, Together

Our vision is a world with no accidents, no traffic, and no pollution. We are committed to creating safer roads, reducing environmental impact, and improving transportation efficiency through advanced technology and smarter systems, contributing to a healthier and more sustainable future for all.

Our Customers

With an established customer base and growing across Ireland, France, Spain, the Caribbean, United Kingdom and the United States of America, Transpoco's reach is truly global.

Although we have a global presence, we pride ourselves on providing local support and expertise on the ground.

Our dedicated teams provide personalised support, tailored to the unique regulatory and compliance needs of each region, ensuring that no matter where your fleet operates, you'll receive the attention and assistance you need to stay on track.

Key Industries

Aviation, Facilities, Utilities, Public Sector, Construction, Telecommunications & Local Authorities

Fleet

Cars, Small Vans, Commercial Vehicles, Construction vehicles, Rail, ICE and EV, Specialist vehicles

OUR CLIENTS

Solutions

We provide comprehensive a suite of solutions for fleets of all sizes, from small operations to large-scale enterprise fleets. No matter the size or complexity of your fleet, we are here to offer you a complete solution required to manage vehicles efficiently and effectively.

Transpoco Move

Ultimate GPS-based fleet management system
Stay in control of your team's productivity with real-time location tracking, ensuring efficient time management and progress monitoring. Streamline operations and optimize resources with ease.

Transpoco Perform

Solution for optimising fleet management
With sophisticated algorithms, it analyses driver behaviour, calculates fuel consumption, and offers intelligent routing. Experience advanced reports to enhance efficiency and reduce costs. Take control of your fleet with Transpoco Perform.

Transpoco Maintain

Included in our Transpoco Perform package
Transpoco Maintain is a powerful fleet compliance software. It streamlines maintenance recording and vehicle checks, ensuring optimal fleet management. Stay on top of your fleet's health with Maintain's comprehensive features.

Transpoco Locate

GPS tracking base with comprehensive fleet management features
Design your own customisable system, tailored to your specific needs. Monitor, track, and optimize your fleet's performance effortlessly. Experience seamless control and efficiency with Transpoco Locate.

Transpoco Protect

Smarter way to ensure safety on the road
Harnessing the power of AI, our platform utilizes voice to identify threats, deliver timely incident alerts, and proactively respond to potential risks. Stay ahead of danger with near real-time preventive measures.

Transpoco Vision

Access real-time footage of accidents or near misses
Protect your business by promoting a culture of safe drivers and quick dispute resolution. State-of-the-art dashcam connectivity allows you to download video evidence, review snapshots, or set up instant alerts in addition to real-time recordings. Our Transpoco Vision dash cams come with a range of features.

Hardware

At the heart of Transpoco's fleet management solutions is our powerful range of hardware designed to provide real-time data, improve safety, and ensure full asset visibility. Our hardware solutions are easy to install and integrate seamlessly into your fleet, offering reliable performance and actionable insights.

AI-Connected Cameras

Our AI-powered dash cams provide enhanced safety and visibility. These cameras are designed to monitor and detect critical driving events, offering real-time insights and recordings that help protect drivers and reduce liability in case of incidents.

Key Features Include:

- Real-time video alerts: Instantly notify fleet managers of unsafe driving behaviours such as harsh braking, speeding, or distracted driving.
- Driver coaching: AI analyses driving patterns and provides automatic feedback, allowing managers to coach drivers on improving safety.
- Incident recording: Capture footage of potential accidents, helping with insurance claims and incident reconstruction.
- Front, Back and Dual-facing cameras: Monitor both the road ahead and the driver's behaviour inside the cab to ensure compliance and safety.

Asset Trackers

Transpoco's asset tracking solutions provide full visibility over unpowered assets such as trailers, heavy equipment, and containers.

Key Features Include:

- Real-time GPS tracking: Keep track of valuable assets at any time, reducing theft and improving operational efficiency.
- Battery-powered options: Long-lasting batteries ensure reliable tracking even for assets without a constant power source.
- Environmental monitoring: Track conditions such as temperature and humidity for sensitive cargo.

Telematics Devices

Transpoco's tracking devices provide a deep level of integration with your fleet's vehicles, enabling you to extract critical performance data directly from the vehicle's onboard diagnostics.

Key Features Include:

- Vehicle diagnostics: Monitor engine performance, fuel consumption, and potential mechanical issues in real time.
- Driver behaviour tracking: Use data from the CAN bus to analyse driver habits such as idling, fuel usage, and harsh braking.
- Preventive maintenance: Receive alerts for scheduled maintenance or diagnostics, helping to reduce vehicle downtime and minimise costly repairs.
- Fuel usage monitoring: Get precise insights into fuel consumption, enabling you to optimise routes and reduce costs.

Intelligence

Drive your fleet's success with Transpoco IQ

Access powerful account management led insights service that highlights key behaviours impacting fleet efficiency. Our IQ team provides expert support to help you set up reports and offers ongoing assistance. Achieve clear, measurable results with ease using Transpoco IQ. Achieve measurable results effortlessly with Transpoco IQ.

Data-Driven Insights on What Works For Your Fleet

Take advantage of data-driven insights that help you optimise your fleet's performance. By analysing key behaviours that contribute to fleet success, Transpoco IQ helps you replicate effective strategies. With extensive telematics data analysis on fleet operations, we assist customers in setting up tailored reports and provide ongoing support to maximize the value of our telematics software and hardware solutions.

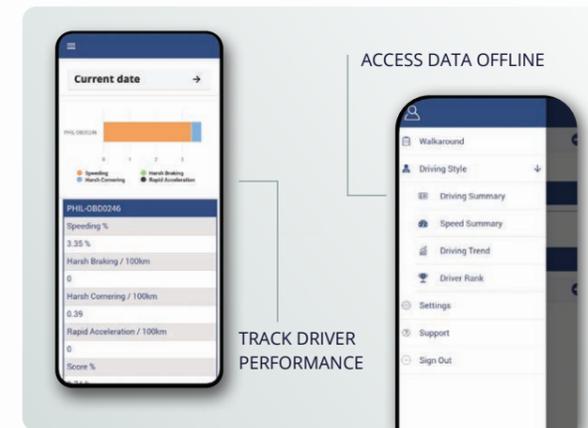

Ongoing Support from Transpoco's Experts

Transpoco's expert team provides ongoing support through Transpoco IQ, a powerful telematics analytics data insights platform that identifies key behaviours driving fleet success. Through tailored reporting and continuous assistance, Transpoco makes sure that customers get the most out of our telematics software and hardware. Leverage valuable data to enhance fleet performance and replicate proven success strategies.

Mobile Apps

Transpoco offers mobile apps designed to give fleet managers and drivers the flexibility to access vital information on the go. With seamless integration into our platform, our mobile apps ensure that your team stays connected and informed, whether in the office or on the road.

Driver App:

Transpoco offers mobile apps designed to give fleet managers and drivers the flexibility to access vital information on the go.

- Vehicle inspections (walk-around checks): Ensure vehicles are safe and compliant before every journey.
- Driver behaviour monitoring: Keep drivers informed about their driving performance with real-time feedback.
- Messaging: Enable communication between drivers and fleet managers to ensure quick updates and better coordination

Fleet Manager App:

Designed for fleet managers, this app offers real-time visibility and control over fleet operations. Key features include:

- Live tracking: Monitor the location of all vehicles in real time from your mobile device.
- Reports on demand: Access essential reports such as fuel consumption, vehicle utilisation, and driver performance from anywhere.
- Alerts and notifications: Stay informed with instant alerts for incidents like harsh braking, speeding, or maintenance issues.

Our mobile apps help ensure that no matter where your fleet is, you always have the tools and information you need to keep everything running smoothly.

Team

Transpoco's success is built on the expertise and dedication of our team. With global offices, we have a team of passionate professionals committed to providing exceptional support to our customers.

From fleet management experts to our customer service and technical support teams, everyone at Transpoco is focused on delivering a seamless experience for our clients.

We pride ourselves on being accessible and responsive, with service and support available around the clock to ensure that our customers always have what they need to keep their fleets running smoothly. Our commitment to flexibility and excellence means that we're with you every step of the way, helping you get the most from your fleet management system.

Safety & Compliance

Ensuring compliance with industry regulations and enhancing safety are critical elements of fleet management. Transpoco offers a suite of tools to help fleets stay compliant and minimise risk on the road.

Key Features Include

- Driver identification: Ensure the right drivers are operating the right vehicles with Driver ID tags.
- Driver safety scorecards: Monitor risky driving behaviours like speeding, harsh braking, and seatbelt violations, allowing managers to address issues before they lead to accidents.
- Walk-around checks: Streamline vehicle inspections with our integrated driver app, ensuring compliance and early defect detection.

These tools help fleet managers keep their drivers safe and ensure compliance with all necessary regulations, reducing the risk of penalties and accidents.
